

Information on the Heavy Traffic Class 2 Course

The Class 2 Licence is a 2 day Course. It consists of 2 Unit Standards throughout the 2 days. It also involves the passing of your learner licence. You will be instructed on the Class 2 & General Road Code, when you are ready you then head down to the A/A or VTNZ to sit the Class 2 Learner Licence. (You are not required to purchase a road code for this.)

You will then come back and you are required to be trained and work through each Unit Standard by filling out a work book. (This is an open book exercise) as this is part of your learning process, followed by a closed book assessment. The 2nd day you will finish any training and assessments and be taken for a pre assessment drive which can take from 15mins to 1 hour depending on your experience. The assessor will then take you for a practical drive. Once you are competent on the Assessments and Drive you will be given your Class 2 Licence Certificate which you then produce to the A/A or VTNZ, so it is recorded on your licence.
