

## Information on the BESS Course

The BESS course is a qualification required by NZTA for any driver who is using an over dimension permit to transport loads.

This half day theory only course covers a wide range of topics including reading your permit, accurately locating your position on the road network, traffic control at bridges and positioning vehicles to cross bridges.

The assessment is made up of short answer questions with some needing basic maths to complete (a calculator can be used).

The employees company must also be BESS registered before this qualification can be used and we can provide additional information on this process if required.

## Requirements for Drivetech

- Your current Licence
- NZTA letter approving your BESS application

## Requirements for NZTA

Drivetech will at this stage supply you with training material and schedule an assessment time that suits you.

## Requirements for Renewing BESS

BESS registration with NZTA only lasts 5 years and prior to this expiry you will need to complete a refresher course to be able to keep using this qualification.

Our trainer and assessor for this course has been approved by the Heavy Haulage Industry. The initial BESS course is a NZQA approved Unit Standard and results are placed onto participants Record of Learning.
