

Information on the Vehicle Recovery Endorsement Course

The Vehicle Recovery Endorsement can be done in 1 day if you have evidence of good logbook skills and have done Unit Standard 24089. Otherwise its a 2 day course. The 1st day will contain training and working through a work book and then you will sit the assessment test. Once you have been found competent you will then go to the A/A or VTNZ to process the rest of the application. If you have to do the Logbook Unit Standard there will be a 2nd day, you will be trained and work through the work book and then there will be an Assessment test. Once you are marked competent you will receive a certificate which you then must take to the A/A or VTNZ to have the V Endorsement put on your licence. V Endorsement can be pre-empted. Ring us to find out how to do this.

If you have any problems with reading or writing or with numbers, then please inform us. We need to know so we can support you. There are a variety of options we can offer you.

Requirements for NZTA

- Must have held a full New Zealand Class 1 Licence for 2 years (Holding an equivalent overseas licence will not meet this requirement)
- Present a Medical Certificate from your Doctor under 60 days old if you haven't done so within the last 5 years.

Requirements for Drivetech

Your Licence

What is a Vehicle Recovery Service?

A Vehicle Recovery Service is a business that tows or recovers vehicles. The towing or recovering has to be for hire or reward. The most common types of vehicle used in vehicle recovery services are tow trucks and car transporters. You're not seen as a vehicle recovery service when you tow your own vehicle, or tow or carry a motorcycle, or use a vehicle that hasn't been designed to tow or carry.

Do I need a V Endorsement?

If you're not sure whether you need a V Endorsement, you can call NZ Transport Agency on 0800 822 422. Note: If you're planning to drive a heavy vehicle in a vehicle recovery service, you must also ensure you have the right class of driver licence. If you need to recover vehicles with Dangerous Goods on board you will need a D Endorsement.

Note:

If you have evidence of good logbook skills and have done Unit Standard 24089 you only need to do the 1 day course which includes a training on the endorsement assessment. Otherwise it's a 2 day course.
